PROFILE

I'm James, a web developer looking to be part of an inclusive team where I can advance my skills as a developer. My passion for web development started in high school and led to me enrolling in a web development bootcamp at LSU. Upon graduating, my experience with PostgreSQL, Express.js, React.js, and Node.js give me the confidence to built fully fledged web applications.

WORK EXPERIENCE

2021
Now

System Administrator

Vivid Ink Graphics | Baton Rouge, LA

- Managed over 50 storefronts, writing custom CSS and Javascript for each one
- Build XML templates that allow users to customize their print items
- Issue logins so clients can access their unique storefront

2015
2021
